

Dear Worldchefs members,

I am sharing the Worldchefs Office [September report](#).

Don't forget the International chefs day. How about turning your event into an online platform demonstration? Try Facebook Live, a Zoom meeting, or make a 5-minute video recording demonstration from the comfort of your home or at work.

Need help with your online presentation? Check out our webpage now, internationalchefsday.worldchefs.org for an updated toolkit to fit into an online platform presentation!

This has never been more relevant so please share with all your members and colleagues.

Gastronomically yours,
Ragnar Fridriksson
Managing Director
